In the State of New York)	

To: Wireline Competition Bureau

**Supplement to Petition for Designation as an Eligible
Telecommunications Carrier in the State of New York**

New York RSA 2 Cellular Partnership (“New York RSA 2”), by its counsel, submits this Supplement to its petition (“Petition”) for designation as an eligible telecommunications carrier (“ETC”), filed with the Commission on June 23, 2005. This Supplement is intended to correct the accidental omission of a wire center from the ETC service area proposed in the Petition and depicted on the map attached to the Petition as Exhibit A.

Specifically, New York RSA 2 erroneously omitted the Rouses Point wire center of Champlain Telephone Company (“Champlain”) from its proposed ETC service area, believing that the wire center lay outside the boundaries of New York RSA 2’s licensed service area. Based on the mistaken belief that the proposed ETC service area included only a portion of Champlain’s study area, the Petition incorrectly listed Champlain as a rural incumbent local exchange carrier (“ILEC”) for which redefinition was requested along wire-center boundaries, and included a cream-skimming analysis with respect to

Champlain in its public interest discussion.

Since the filing of the Petition it has come to the attention of New York RSA 2 that the Rouses Point wire center is in fact in within New York RSA 2's licensed service area. Because the Champlain's study area is found entirely within the proposed ETC service area set forth in the Petition, New York RSA 2 may be designated immediately in that study area without the need for redefinition. Accordingly, Champlain appears on the amended Exhibit C, attached hereto, which lists the rural ILECs subject to immediate designation. Champlain is likewise stricken from the amended Exhibit E, which sets forth the rural ILEC wire centers for which redefinition is requested. Also attached is a corrected map, serving as amended Exhibit A, correctly showing the Rouses Point wire center as within the proposed ETC service area. Finally, because the entire study area is within New York RSA 2's proposed ETC service area, no cream-skimming analysis is needed with respect to Champlain. Accordingly, this Supplement also serves to strike all references to Champlain from the cream-skimming discussion in Section VI(F) (public interest) and from Section VII (redefinition) of the Petition.

Undersigned counsel has discussed this correction with legal counsel for Champlain and with a representative of the New York State Telecommunications Association ("NYSTA"), of which Champlain is a member. No new territory or additional affected ILEC has been added by virtue of this Supplement; indeed, Champlain is impacted even less by the Petition as amended because New York RSA 2 seeks to assume ETC obligations throughout its study area and no cream-skimming is possible. Therefore, no party's procedural rights are affected by this Supplement.

Accordingly, New York RSA 2 requests that the Commission associate this Supplement and its attachments with its original Petition.

Respectfully submitted,

**New York RSA 2 Cellular Partnership, a New York
general partnership**
